this book investigates how work ethics in europe were conceptualised from the middle ages to the nineteenth century through analysis of a range of discourses it focuses on the roles played by intellectuals in formulating communicating and contesting ideas about work and its ethical value the book moves away from the idea of a singular weberian work ethic as fundamental to modern notions of work and instead emphasises how different languages of work were harnessed for a variety of social intellectual religious economic political and ideological objectives rather than a singular work ethic that left a decisive mark on the development of western culture and economy the volume stresses plurality the essays draw on approaches from intellectual social and cultural history they explore how why and in what contexts labour became an important and openly promoted value who promoted or opposed hard work and for what reasons and whether there was an early modern break with ancient

and medieval discourses on work these historicized visions of work ethics help enrich our understanding of present day changing attitudes to work

at a time of major changes in the united kingdom and to a lesser extent in france induced by the proposed brexit process this collective work composed of thirteen chapters from highly experienced academics and specialist professionals from both sides of the channel examines their consequences on the french and british relationship in a range of institutional political legal economic cultural but also strategic and defence related fields with an emphasis on comparative and or european points of view the two editors are respectively associate professors at panthéon assas and tours universities geraldine gadbin george is an english solicitor a former avocat at the paris bar and a former french judge elizabeth gibson morgan is visiting senior research fellow at king s college london in the department of contemporary history

regulatory impact assessment ria is the main instrument used by governments and regulators to appraise the likely effects of their policy proposals this pioneering handbook provides a comparative and comprehensive account of this tool situating it in the relevant theoretical traditions and scrutinizing its use across countries policy sectors and policy instruments comprising six parts university researchers international consultants and practitioners working in international organizations examine regulatory impact assessment from many perspectives which include research traditions in the social sciences implementation regulatory indicators and effects tools and dimensions such as courts and gender sectoral case studies including environment enterprise and international development international diffusion in the european union eu americas asia and developing countries appraisal training and education with its wealth of detail and lessons to be learned the handbook of regulatory impact assessment will undoubtedly be of great value to practitioners and scholars working in governance political science and socio legal studies

this definitive handbook addresses the current lack of research into european policymaking and development using an interpretive perspective questioning areas that mainstream approaches tend to neglect contributors target the ways in which ideas arguments and discourses shape policies in the institutional context of the eu
