governance and the hegemony of financial stability from financial crisis to climate emergency explains how the handling of the global financial crisis has redefined the relations of politics and financial markets and how the then established hegemony of financial stability still dominates responses to current challenges particularly climate change the book argues that within

the years of crisis management a hegemony of financial governance evolved that accepts the financial system as being intrinsically crisis laden and potentially disastrous for broader notions of welfare and social security the book traces how this framework redefined state market relations expanded technocratic authority and extended into new domains including climate policy where climate risks are reframed as threats to financial stability by analysing the work of a transnational epistemic community of central bankers regulators and financial stability experts it analyses how post crisis governance operates through risk management surveillance and resilience building it captures how political and financial rationalities co evolved towards a hegemony that seeks to contain crises without addressing their root causes and thus prevents more transformative changes the book will appeal to scholars of political science economic sociology international relations international political economy as well as security finance and economics

due to the lack of political salience that financial stability policy enjoys in tranquil economic times this policy field lends itself particularly well to capture the more so the more important the role of banks is in the financial system gundbert scherf s research focuses on this nexus between integrated banking supranational monetary policy and national banking regulation he finds that national level differences in financial systems and related institutions explain and drive variation in regulatory financial stability policy across countries

understanding financial stability undertakes an in depth analysis of all the issues related to financial stability it establishes a general framework for a holistic assessment of financial stability provides a comprehensive analysis pertaining to the genesis of financial crises and offers key terms embodied in financial stability

since the outbreak of the 2008 financial crisis european union eu institutions and member states have engaged in a major effort to repair the architecture of economic governance of the european economic and monetary union emu this book takes as its starting point the unclear notion of financial stability which only recently has received a more detailed legal analysis it examines the evolution of the concept of financial stability during the financial crisis and provides a conceptual framework in order to demonstrate that financial stability has become a foundational objective in europe and has set a new normative framework in eu law and policy arguing that financial stability is a foundational objective in eu law and policy based on certain normative instruments this ground breaking book provides an in depth and original understanding of the newly developed framework to attain supranational financial stability in its analysis of the legal implications of these new instruments the study examines topics and issues such as the following the concept and normative instruments of financial stability at european level the renewed economic governance in europe the financial assistance mechanisms developed in europe the

new regulatory environment for banks at european level the single supervisory mechanism and the role of the european central bank ecb therein and the new framework for banking resolution with specific focus on the single resolution mechanism the author shows in detail how an appropriate level of supranational regulation supervision burden sharing and rescue measures strengthen financial stability thereby the book will appeal to officials in eu institutions and agencies as well as lawyers and academics in eu law and in banking financial law to gain a clear understanding of role of financial stability and its normative instruments in eu law and policy gianni lo schiavo is currently working as a lawyer at the ecb he obtained a phd in eu law at king s college london and has written numerous articles and chapters in eu administrative law eu financial banking law and eu competition law

textbook

an update to his comprehensive 1996 text on project finance in emerging economies razavi s authoritative new book provides first hand information and analysis of how multilateral bilateral and commercial financiers decide to support an energy project it presents the major changes in the attitudes and orientations of these financiers as they have entered a competitive environment seeking opportunities to do more business in the energy sector of developing countries for every good energy project there is a financier somewhere however creating an attractive project package requires an explicit understanding of the following availability of soft loans credits grants tied and untied loans objectives tendencies and requirements of various financiers possibilities of combining various financial instruments methods of economic financial and risk analysis and mitigation the reader is guided through the process of understanding the fundamentals of project financing getting to know the financiers and developing an acceptable project package finally some real world case studies demonstrate the intricacies of mobilizing funds for projects in various segments of the energy sector
